BIO

Intuitive Consultant Jane Orr: Astral divorce is her unique healing technique. Experience a powerful energetic detachment from people, places and things. A fast and powerful process for letting go and moving on.

"Following a successful secretarial and admin career in government, retail and business sectors, I retrained as a psychotherapist and holistic practitioner. Following my studies, I was a tutor on the MA Psychotherapy & Healing course, validated by Middlesex University. I have always had an interest in the esoteric and spirit world, however, as the archetypal psychic sceptic, the spirit world made sure I had many psychic experiences myself! I initially trained with Lee Everett, a very gifted healer and spiritual counsellor. Over the years I have been lucky to learn from the following teachers: Denise Linn, Doreen Virtue, Dr Deepak Chopra, Dr Candice Pert, Vianna Stibal, Ian White, Steve Johnson, Clare Harvey, Dr Judy Griffin, Caroline Myss, Catherine Ponder, Lisa Mechen, Bob Proctor.

I am a magical person, with a hotline to spirit. I can tune into your aura and past lives, as well as your current situation. I can see and deal with unwanted energetic cords from others, help you identify and clear limiting beliefs, old vows, contracts and outmoded behavioural patterns from this life as well as others. I continue my own spiritual development and downloading new healing gifts, to add to my substantial toolbox."
